Traders Bid Up Stocks to Stimulate Market-Firmness Shows in Loans

NOTE—All market news on this page reflects closing sale prices (unless buy or bid be specified) Tuesday, Sept. 16, 1913.

New York, Sept. 16.—The absorbtive capacity of the market was tested again today, through liberal selling for both accounts, which was stimulated by higher prices. Offerings were taken without serious effect on values, conveying an impression that the present speculative movement was being kept well in hand. The effect on the money market of the recent enlargement in activity was a matter of concern to traders. Increasing firmness of loans for all periods pointed to the difficulty which would be encountered in linancing a broad speculative movement.

ment.

Bidding up of selective stocks was resorted to when business larged, but the whole movement hore little resemblance to the huoyant market of last week. Alternately the market averaged a fraction above and below yesterday's close, with the trend upward for the mest part. New Haven was exceptionally weak, falling back nearly two points.

Bonds were easier.

Stocks were supplied when the rise in several issues reached large proportions and the whole list fell back abruphly.

tions and the whole list fell cack and ruptly.

The markit closed heavy. Stocks were under steady pressure in the stosing hour, resulting in a pretty therough obliteration of the gains, except where advances had been exceptional. A few stocks were distinctly weak, including interborough Metropolitan preferred, Can and Consolidated Gas. Canadian Pacific and Reading sold two points below the top and Steel and Amaigamated one.

THINKS SECRET OF SEX MAY BE FOUND IN PLANT LIFE

Birmingham, Eng., Sept. 16,-The secret of the determination of sex pos-sibly may be found in plant life, sir Oliver Joseph Lodge told the British association, at its meeting here. Referring to the fact that some plants produce both male and female flowers, he said this must be the result of some profound change in the sap at the junction in the stems, where differently sexed flowers branch away from microscope tells me nothing. Perhaps

if physiologists could find out what happens in that little plant joint they might get a cine why some human lives are born boys and other girls."

Widespread Rain Makes Corn Prices Heavy; Provisions Are Steady.

Chicago, Ill., Sept. 16.—Wheat eased ff today unler selling due in part to liberal increase of the European visities counted also in favor of the ears. Falling off in arrivals this side f the Canadian line appeared to be gnored. The opening was unchanged to it to it lower, and there was some diditional decline.

The close was firm at it to it net dvance. dvance. Widespread rain made the corn mar-et heavy because of the benefit to asturage. The market started at & 0 the off, and seemed unable to rally. Closing figures were steady, & to the over last night. Outs displayed some symptoms of the orn. Pit speculators did most of the Provisions held about steady, influ-enced chiefly by the hog market.
